SUBJECT: BCCS Web Site Announcement

The Bureau of Communications and Computer Services is proud to announce the launch of their new web site at <http://bccs.illinois.gov>. The web site will allow the Bureau to communicate better with customers by bringing together all of the information about BCCS into one convenient location. The site will be an easy reference for memos and communications, organization and contact information, and policies.

The web site is designed to make information about the bureau more accessible. Categories of information currently available include communications, governance, an FAQ, policy information, news, and contact information. The site also serves as a portal to the existing Telecom Services, IWIN, Illinois Video Network, and Illinois Century Network sites. In the future, the site will also feature a complete catalog of products and services.

New information will be added on a regular basis so bookmark the site and check back on a regular basis. Please contact Lisa Griffith (lisa.griffith@illinois.gov) or Beth O'Mahoney (beth.omahoney@illinois.gov) with any questions or suggestions for the site.
